

How to clean Rome

By Andrea C. & Gabriele Z.

Pollution - private vehicles

Public transport

Renewable energy

Rental services

New taxes

Water dispenser

Where our main focus is based on

- **Promote the usage of electric cars**

TESLA

- Help electric car corporations growing the business

- More electric stations all over the city

Private vehicles

Electric/ hybrid vehicles

Awareness campaigns

Public transport

Lower taxes for the renewable energy usage in order to tempt people buying electric solutions for their energy supply

Renewable energy usage 

New taxes

On plastic products

To avoid this

Plastic tax

Heavy fines for those who pollute

E-cycling rental services

Recycling from schools

Flasks for every citizen

Water dispensers all over the city

Other
