

CARLO MANGIONE 3SCB

EARTH DAY

ISSUES

- Presence of plastic in seas and beaches
- Deforestation
- Polluted mobility

SOLUTIONS

- To solve the problem of plastic of all governments have to provide recycling to people
- Deforestation is a rising event that is killing the planet, people have to plant new trees and government have to protect our forests
- Pollution is mostly made by vehicle traffic, cities have to provide public electric vehicles, while people should use motor bicycles and public transports.

ROBINSON CRUSOE

Robinson Crusoe teaches us how nature is fundamental for our lives, if the environment doesn't work in a correct way, our existence will be impossible.
As Crusoe, we have to respect the place where we live and improve the things that nature offers us.
